

Session 1 Ensuring Good PRA

- What do PRA models/data, updated periodically, need to keep their credibility? -

➤ Discussion points

- How does the domestic PRA model (including data) compare to international standards?
- If there is a gap, is it being identified and addressed?
- What is the cause of the current situation where domestic models are not trusted due to past impressions?
 - ✓ Technical insufficiency
 - ✓ Deficiencies in systems and organization
 - ✓ The relationship with utilization is unclear, etc.
