

Session 3 Establishing Performance Metrics

- What is the role of performance metrics in safety improvement beyond regulations?-

- **Discussion points**

- ✓ What is the appropriate use of safety goals and performance metrics for risk informed safety enhancement, and what can be realized by the official establishment of Safety goals? (For example, what cannot be executed with unofficial safety goals and performance metrics, and with Δ CDF indicator in SDP (ROP)?)
- ✓ When comparing the risk informed approach at the U.S. Diablo Canyon Power Plant and at Japanese plants, what gaps can be identified in both, and can safety goals and performance metrics play a role in solving the gap?
- ✓ To what extent relevant parties share the same understanding of in the use of safety goals and performance metrics for effectively improving safety by committing limited resources to safety critical areas?
